Inventec is continually developing an extensive product range that are tested and validated according to standards and norm to deliver high quality, high performance products. We do this with a commitment to delivering high environmental value and return on investment to our customers.

To avoid buying or using counterfeit fluxes, solders, coatings or cleaning solutions, we strongly recommend you source genuine products from Inventec subsidiaries and/or authorized distributors & resellers. **The website and contact information for these approved vendors, listed below, can be found on our website at www.inventecusa.com:**
