

**FOR IMMEDIATE RELEASE**

**Inventec Performance Chemicals USA, LLC names Collin Whalen Northeast Regional Sales Manager**

*Deepening strong team to support Inventec USA's strategic focus on sustainable business*

DEEP RIVER, CT – July 10<sup>th</sup>, 2019 -- Inventec Performance Chemicals USA LLC, producer of Inventec solder pastes, coatings, cleaning chemistries and Amtech branded solder products, is pleased to announce Collin Whalen has joined the organization as Northeast Regional Sales Manager. Collin's responsibility spans two major product lines: high-reliability soldering and sustainable cleaning chemistries. He will report directly to David Reitz, CEO and Managing Director of Inventec Performance Chemicals USA.

David commented, "We are delighted to have Collin Whalen -- a talented, sustainability-minded, salesperson -- join our team. Working arm and arm with our customers, Collin will help them prepare the business case for high-reliability industries to support their growth in a changing market – one that's more focused than ever on sustainable products, the health of employees and the health of our planet," David continued, "Collin's valuable experience in aerospace and optics, which have been growth areas both locally and globally, will bolster our already strong team."

Collin added, "I believe the opportunity in the US is monumental. I clearly see Inventec providing customers in many different industries, with high-quality, high-performance solutions, which, without compromise, are safe for both workers that handle them and for the environment. This is both ethically just and setting the stage for the future."

This fall, Collin and Inventec's team will be at SMTA New England & Tech Expo in Boxboro, Massachusetts on October 8<sup>th</sup> & SMTA International in Chicago, IL on Sept 24<sup>th</sup>-26<sup>th</sup>.

Collin grew up and lives in New Hampshire and he studied business at Keene State College.

**About Inventec Performance Chemicals USA LLC**

For over 40 years, **INVENTEC** has been serving industrial markets with sustainable products and processes that reduce the total cost of ownership, delivering:

- *Innovative solutions* that feature *uncompromising performance*
- *Environmental and health protection* by substituting safer products for hazardous substances ahead of regulatory standards, and by developing intelligent risk management solutions for non-substitutable hazardous substances.
- *Proximity of experts* in more than 20 countries who provide expert consultation, resulting in optimized solutions that serve the total needs of our customers.

Inventec has 10 subsidiaries throughout Europe, Asia, USA and Mexico, including 7 production sites that are all *ISO 9001* or *ISO 14001* and equipped with state-of-the-art laboratories. In 2014, Inventec expanded their presence across North America by adding AMTECH solder pastes, solder powders, and process support products, providing a highly complementary addition to the full line of INVENTEC products for the electronic assembly marketplace.
