

PROMOCLEAN™ TP 184

FEATURES

PROMOCLEAN™ TP 184 has been specially developed for the cleaning of most of inks used in printing companies.

At the time of work exchange of machine or when some defects appear during the printing, it is necessary to clean the plates, blanket and the inking systems.

This is widely made by hand on machines with wipes and cleaning products. It can also be done by automatic system with brush, jets, blanket or with impregnated wipes.

Advantages of **PROMOCLEAN™ TP 184**

- non flammable
- can clean ink residues on rotative machine elements and “offset” machines
- developed to be mainly used in solvent fountain, it can also be used on wipes, by spray or by immersion in tanks (it is however necessary to check the compatibility of seals and plastics). It must be used at room temperature.
- Good separation of the product with the cleaned inks, especially acrylate and polyacrylate inks used for the UV technic and so extend its shelf life avoiding its saturation.

SPECIFICATIONS

Properties	Units	Values	Methods
Appearance	-	colorless - clear	visual
Odor	-	sweet	-
Density at 20°C	g/cm ³	1.02 ± 0.02	MO 0810

CHARACTERISTICS

Types	Units	Values
Boiling point	°C	105
Flash point	°C	> 65
Flammability limit % volume	LII LSI	1.3 16.9
Solubility in water	ppm	partially soluble

PACKAGING TYPE

In 20 kg and 200 kg containers.

STORAGE & SHELF LIFE

PROMOCLEAN™ TP 184 is non flammable in normal conditions of use and storage. It is stable at room temperature and in normal conditions of use. Detailed handling procedures are provided in the correspondint safety data sheet, available on request.

Keep products in closed containers.
Product shelf-life : 18 months.

HSE

PROMOCLEAN™ TP 184 may recycled or easily disposed as waste oil, either by our company or a waste disposal company, please contact us for more information regarding this.

Before using **PROMOCLEAN™ TP 184**, read the product safety data sheet.

People who handle or are otherwise exposed to the product must wear the personal protection gear recommended in the product safety data sheet.

PROMOCLEAN™ TP 184 has very little impact on the environment and generates low emission at use temperature. It does not deplete the ozone layer. The solubility of the product in water makes it easily biodegradable.

The information contained in this product sheet is given for indicative purposes and in no way incurs the liability of INVENTEC. All users are liable, with respect to Administrative Authorities (regulation of facilities classified for the protection of the environment) for the compliance of their installation.
